# How to draft and export a new specification – for beginners.

This guide explains the basics of how to draft and export a new specification in a chosen jurisdiction.

See our other user guides to take a deeper dive into using the many features within the Draft New Spec tool.

Tip! **All** of the goods and services that appear when you are drafting for a specific country are pre-approved by the specific IP office you've selected.

1 Navigate to <u>https://app.sortify.tm/</u>

# 2 Click "DRAFT NEW SPEC" in the 'Workboard'
